

Love's Left Standing

Intro: Em B7 Am

Verse 1:

Em

It was there before the sun, and it will be when all is done

B7 Am

When your faith is on the run, and your heart is hardly holding on

Em

It's the whisper in your ear, it's the peace that calms the fear

B7 Am Em

It's the ice that cools the heat - the flame you feel but you can't see

Chorus:

C G D Am C
And we fall (we fall), we all fall down and love's left standing tall

G D C G
And I am on my knees again, and then You call (You call)

D Am C G D
We hear Your voice and suddenly I'm new again - covered in Your love
Em

And love's left standing

Verse 2:

It's the light you can't turn off, it's the ear that hears the knock

It's the wedge that breaks the lock, I'm just the match but You're the spark

The old's been stripped away – love stepped up and took its place

Gave me a reason to kneel before the Throne of Grace

Chorus

Bridge:

B C Em
Castles in the sand – watch them fade away

B C
Try as best they can – fall victim to waves

G D
But once those walls come down, I won't feel afraid

Chorus #2:

So let 'em fall (they all fall)

They all fall down and love's left standing tall

And I am on my knees again, Oh, they fall (they fall)

They all fall down and love's left standing tall

And I am on my knees again, and then you call (you call)

We hear your voice and suddenly I'm new again - covered in Your love

Oh I'm new again - covered in Your love (2x)

And Love's left standing

Tag: Am B Am

In the end, in the end love's left, Oh, in the end, in the end love's left
